

A better way of life.

CREATING SUCCESSFUL STUDENTS

By Creating Excellent Learners...

NLP Communication Model - discover how students process the information that comes into them from the outside.

Eye Patterns - discover how to enhance memory skills to make revision & accessing information easier

The Learning State - a simple yet effective state that assists students in absorbing more information while in the classroom

Anchoring - discover how to teach your students to be in charge of their emotional state anywhere anytime

Spelling Strategy - teach your students to spell easily & effortlessly a fun fail-safe technique that always produces results!

Metaphors & Embedded Suggestions - learn how to gently lead your students to more effective results

What is NLP?

Neuro Linguistic Programming (NLP) is one of the most advanced technologies today for creating human change both in individuals & groups in Business, Education, Coaching & Therapy.

NLP in Education

Most teachers today would agree that teaching is a constant challenge. There is increasing pressure to improve results, raise achievements & move from success to excellence. Neuro Linguistic Programming (NLP) & Time Line Therapy® techniques provide teachers with the tools necessary to create more effective learners in their classroom & to motivate and engage students.

**Full Day or Half Day
Workshops for
Teachers**

**Circle of Excellence
kids love this
technique**

**Goal Setting
a journey along the
timeline so kids can
achieve the results
they really want**

**Boost your students'
self confidence**
